Dear Hiring Manager,

We are pleased to write this letter of recommendation in support of Caio Pavesi. We have been working at the BMW Group for many years and we have had the opportunity to mentor several interns. We worked closely with Caio and we were able to observe and evaluate his performance firsthand.

Caio has consistently demonstrated a commitment to excellence, quality, efficiency, and passion for our company. His proactive, analytical thinking and technical expertise across platforms like the Office Suite, Power Platform, programming languages, and many others have driven digitalization and automation projects across multiple departments at BMW.

As an example, he developed multiple systems, processes, and dashboards to handle production data, streamline workflows, eliminate errors, and increase productivity. Caio's versatility and work ethic have made him a reference across our plant. He has supported colleagues both locally and internationally, and provided training to efficiently utilize complex systems and tools.

Caio also has the ability to communicate ideas with clarity and confidence. His presentations frequently receive great feedback for their structure, clarity, and engaging delivery. He is also a great team player, actively listening to ideas, committing to group decisions, and contributing wherever needed, whether in the office or on the factory floor, getting his hands dirty.
